快速安接指南
Quick Installation Guide

# 1 配件清单
Accessories List
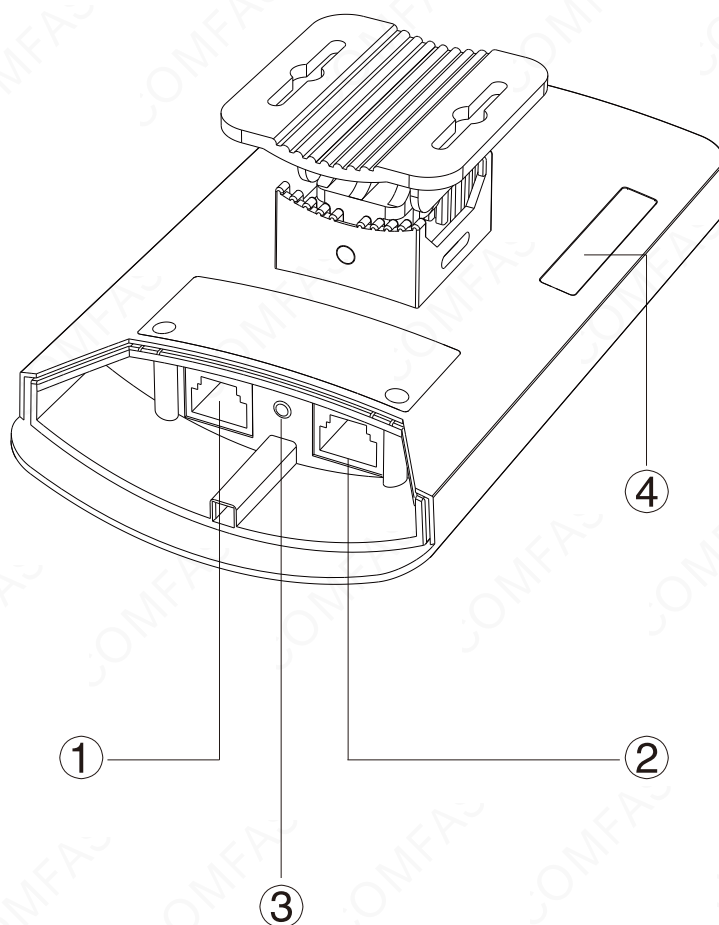

金属扎带
Stainless Ties

旋转支架
Rotation Holder

POE电源适配器
POE Power Adapter

2 接口说明
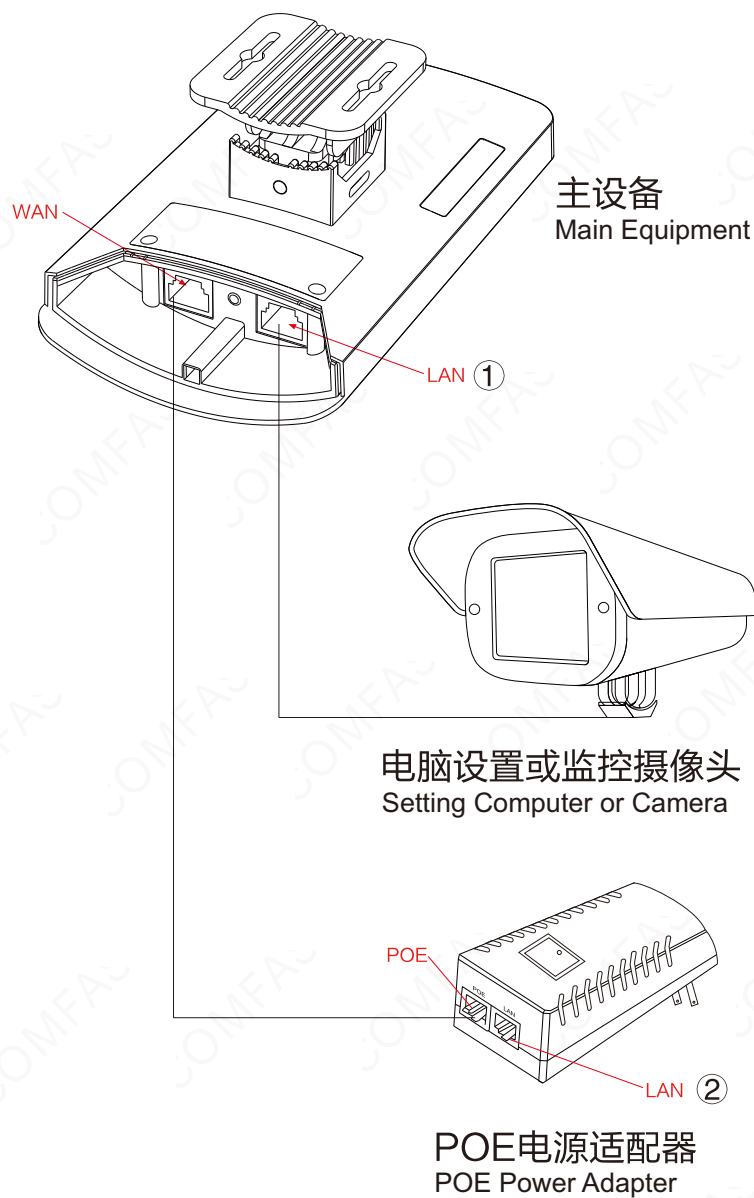

Interface Description

① WAN口，用于POE供电及数据传输；
  WAN Port: Used for POE power supply and
  data transmission.

② LAN口，用于POE供电及数据传输；
  LAN Port: Used for POE power supply and
  data transmission.

③ Reset，用于复位设备，恢复出厂设置；
  Reset: Used for rest to factory settings.

④ 指示灯，反应设备状态情况；
  Indicator: Show the status of equipment.

3 典型连接示意图
Schematic Diagram of Typical Connection

主设备
Main Equipment

WAN

LAN ①

电脑设置或监控摄像头
Setting Computer or Camera

POE

LAN ②

POE电源适配器
POE Power Adapter

① 设备LAN口可连接电脑进行模式设置，设置完成后再连接网络摄像机。

Connect LAN port of the device and the computer to set the device mode, then connect the network camera after mode settings is finished.
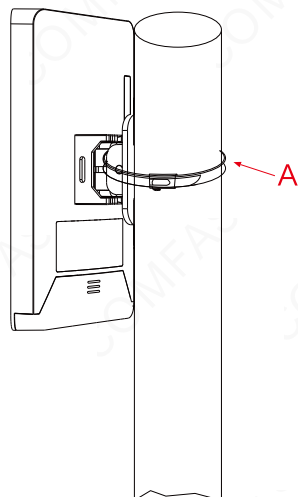

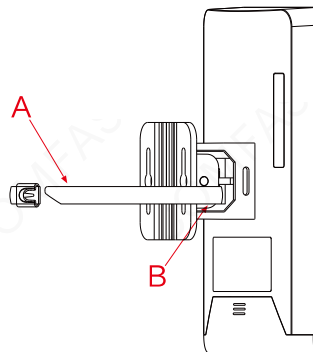

② 电源LAN口在设备模式设置完成后，连接互联网。

After mode settings finished, connect LAN port of the POE power adapter to the Internet.

4 扎带安装指南
Installation Guide for Tie

① 先将金属扎带A穿插在产品背面B位置的安装孔内，可根据抱杆的粗细对安装位置进行调节。

Make the tie A through B and adjust to suitable position according to pole thickness.

② 将主设备安装在抱杆上，用钳子将金属扎带A拉紧。

Install the main equipment on the pole and fasten stainless ties A with pliers.

③ 按住卡扣E,将主设备的盖板C取下，然后将网线D插入网口，最后将主设备的盖板C扣紧即可。

Press the buckle E, and remove the cover C of the main equipment, then plug the wire D into the ethernet port, finally fasten the cover C .
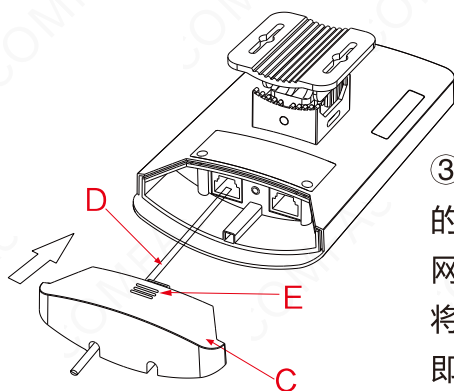

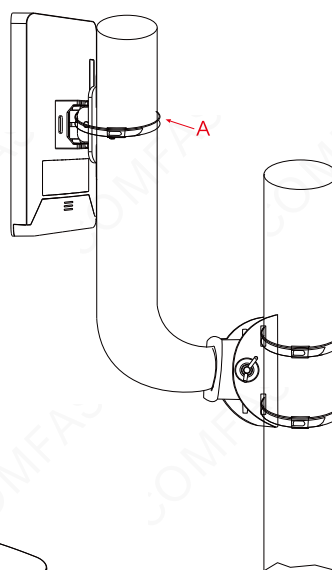

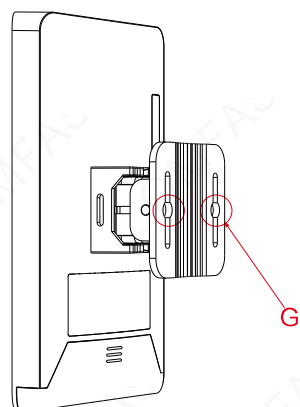

5 支架安装指南
Installation Guide for Bracket

① 先将金属扎带A穿插在产品背面B位置的安装孔内，可根据抱杆的粗细对安装位置进行调节。

Make the tie A through B and adjust to suitable position according to pole thickness.

② 先将支架安装在抱杆上，再将主设备安装在支架的抱杆上，用钳子将金属扎带A拉紧。

Install bracket on the pole, then install the main equipment on the bracket and fasten stainless ties A with pliers.

③ 按住卡扣E,将主设备的盖板C取下，然后将网线D插入网口，最后将主设备的盖板C扣紧即可。

Press the buckle E, and remove the cover C of the main equipment, then plug the wire D into the ethernet port, finally fasten the cover C .
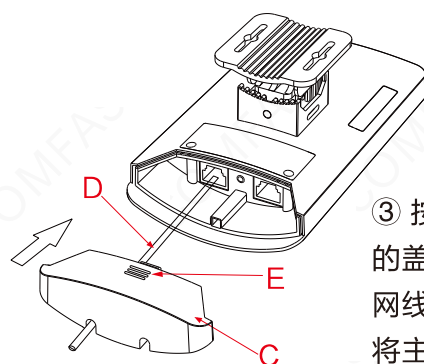

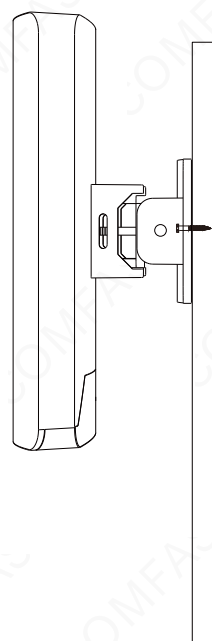

6 钉墙安装指南
Installation Guide for Wall Mount

① F、G是钉子孔位。
F and G are nail holes.

G

② 将两个钉子钉在墙上，把设备
的两个孔位对应钉子挂上即可。
Place two nails on the wall
and hang up the CPE on
the corresponding nails.

D

E

C

③ 按住卡扣E,将主设备
的盖板C取下，然后将
网线D插入网口，最后
将主设备的盖板C扣紧
即可。
Press the buckle E,
and remove the cover
C of the main equipment,
then plug the wire D into
the ethernet port, finally
fasten the cover C .
